## Vibiemme Minimax Manual \$3897 Plus gst

- Minimum space requirement- Maximum ability. The Minimax semi automatic offers a quality package at an excellent price with a very small footprint for a two group machine with adjustable feet positions for narrow benchtops)
- The Minimax is available in manual push button( Pulsante) or full auto dosage (Electronica) configurations.
- The Mini-max is an excellent machine for environments where maximum production is only for short periods throughout the day or where coffee is a moderately popular add on to the main sale.
- Although it may be small in size and designed with moderate production in mind it is built with the same components and to the same standard as the bigger models in the Vibiemme range
